I believe there is always time for a good story.
Whether that story is in the jungles of Liberia, the rice fields of Cambodia, a massive concert in Nashville or a country road in South Carolina.

Cameras -to capture a story's beauty
A curious mind -to search each story out
A big smile -to make it fun

Projects include over 600 music videos and a 2002 Academy Award for Feature Length Documentary.

But most days I find the best stories are right at home with my wife Jennifer and our 4 kids.
